Alexis-

Hopefully this is what you were looking for—I didn't really have time to do more than skim FL's memo. Because this is a mix of permitting and authorization, I've cc'd Mary Andrews who may have further thoughts. Let me know if you need anything further or if I've missed the mark

**Subject:** current version of ESA/404 memo

Hello everyone – Thank you for meeting with me and Simma. We really appreciate your time on this. Here's the current version of the ESA/404 response memo that we discussed during our meeting today. If you have an opportunity to add your thoughts at the end in the implications section, that would be great. We're not sure when the stakeholder meeting will take place but if you are able to add your sections by COB Tuesday or Wednesday morning, I think that would be fine. We will let you know if the timing changes.

Thanks again,
